

# Beneath the City Lights

There is a city  
called  
"Aztoria".

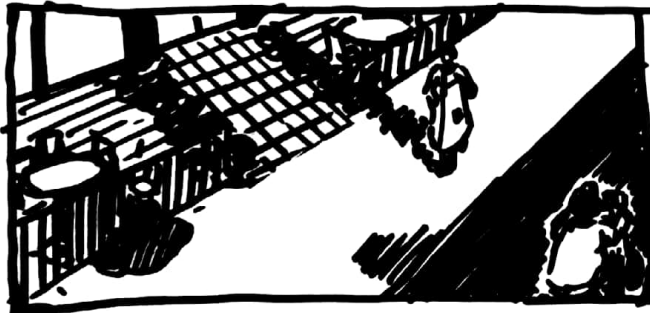

It sits on the eastern  
quarter of Oceania.

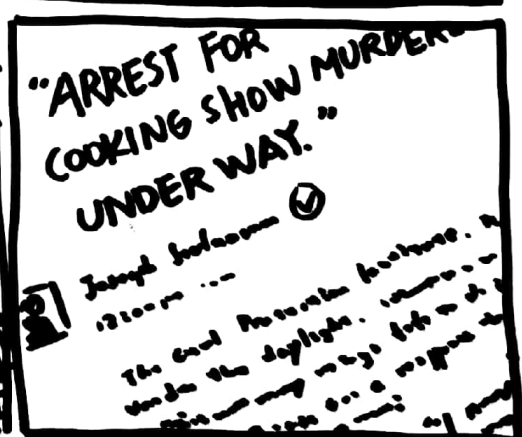

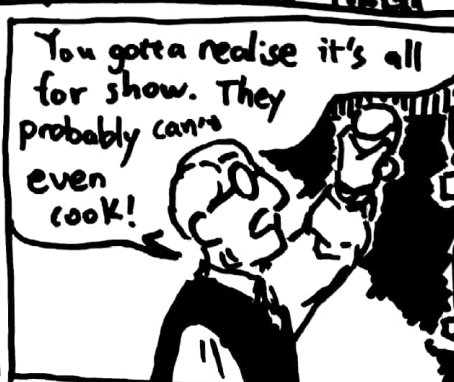

Within this city, strange things happen.

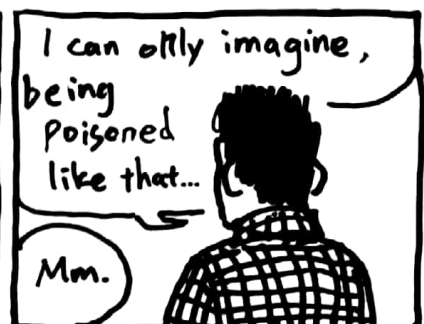

Hidden beneath the city lights,  
is something inconceivably sinister.

Find yourself in  
strife, your  
surroundings  
quite insane...

Don't approach  
it with a knife,  
just come get  
on the A-Train~~

You want to tell  
me something.

/wsm.

Hum?

It was me.

It was you what?

It was me who  
killed that judge  
on the cooking  
show, 2 months  
back...

Oh!...

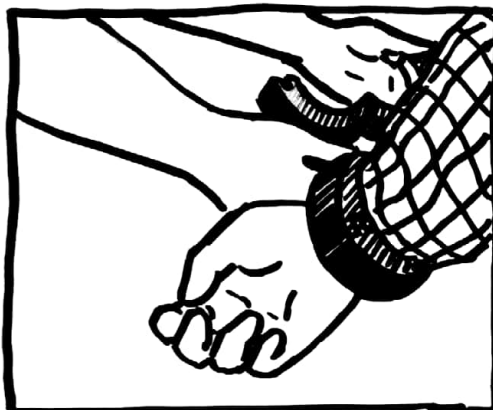

I shouldn't  
have done  
it!!...

Does anyone else  
know?
